

NEW YORK STATE POLICE REFORM AND REINVENTION COLLABORATIVE

Members of the Walton Village Community:

In compliance with Governor Cuomo's Executive Order the village requests that all members of our community be they residents, landowners, businesses, or organizations in the village provide us with their assessment of our police department and it's activity. An open public forum would be ideal but with the pandemic impractical so we offer this opinion poll instead. All responses, comments, and suggestions will be taken seriously and utilized to improve our police policies and service.

Please return to the Village Office 21 North St unsigned or in plain envelope marked Police Reform.

- Are the needs of our community being met by our current police department activity?
- Are our officers biased toward any part of our community?
- Do our officers use excessive force or intimidation?
- Are our officers appropriately responsive to your needs?
- Are our officers approachable and friendly within the community?
- Do you have any specific suggestions to improve our police department?
